## 24/7 Watchful Eyes

AUSTRALIAN MADE

## *Protrac iD BabyGuard Security Tag*

*The BabyGuard Security System provides security for a baby or child in the maternity and children's ward.*

*The BabyGuard Security System triggers an alarm if the baby or child is taken from a monitored area within the maternity ward or hospital without its mother or if the tag is removed from the baby.*

- **Peace of mind for mother and staff.**
- **User Friendly Protrac iD BabyGuard Software.**
- **Simple easy to use tag allocation by staff.**

### No ugly portals!

In conjunction with Protrac iD software the Protrac iD discrete reader can interface to any security system providing around the clock protection and if required has capabilities of locking exit doors.

### Economical

The tag is easily attached to the baby's ankle or wrist by a disposable strap. Tags are ultrasonically sealed, re-useable and can be sterilized. Battery life expectancy 3-5years.

## FEATURES

- Ultra lightweight tag
- Unique tag ID enables each baby to be identified and matched to its mother
- Alarm is triggered when a baby exits without its mother
- Ability to assign additional authorized persons to override a baby exit alarm
- Alarm is triggered when the strap is cut or the tag is missing.
- Optional tracking of babies from area to area
- Disposable Strap
- Hermetically Sealed – can be worn in bath
- Re-usable tag-3-5 year battery life
- Fits any size ankle or wrist
- Compatible with Protrac iD Nurse Call, Access Control, Nurse Duress, Blood and Drug Temperature monitor, AssetTrac, VisitorTrac and KeyTrac Hospital Systems
